

My Christ came to me about 3 weeks before Sept 4,  
in my room, at my challet, at night, I woke up in  
the middle of the night, with this vision

Became, if I tell you what the plan was ~~was~~  
thorands of people will be touched mentally.  
I don't want this nor my Christ.

My Plan was like the infamous <sup>++</sup>Blue bird fire in a  
night club, where a fire was set, ~~was~~ at the entrance to  
the Club, (BACK DOOR I THINK WAS LOCKED) The people  
inside could not get out, I think they all died.

I wanted to set the first fire at the rear of the Metropolis  
to the rear entrance. 4 gallons of gas

Then I would drive to the front entrance, and set  
another fire in the entrance, I had another 4 gallon of gas  
for the front Entrance.

The Plan was to kill as many separatists as I could  
the head, the new MPs, their leaders, their back bone.

I could be judged CRAZY <sup>++</sup> AND GO TO PINEAL.

On the morning of the 4th of September, I woke up from  
a straight sleep. And I knew I had to go to see the  
Metropolis club.

This morning I had planned to go into Montreal and see  
My sister-in-law in the Royal Victoria Hospital. Julie. Wife  
of my Brother Bob.

When I left the hospital around 18<sup>00</sup>, I drove to the Metropolis, where I saw the front entrance.

I then drove to the rear of the Club.

A man, white about 60 years old was on the sidewalk standing in front of steel grated stairs, to go into a building.

I asked this man if those stairs led to the Club Metropolis. He said yes.

At this time I took a second ZYMOLA PILL, and drove back to my challet.

On driving back to my challet the rest of the events came into my head.

Guns, boots, bullet proof vest, clothes, gas, Road flares  
Immobilize mask, Home coat, Etc.

The part of Blue Bird

Metropolis I had to do something, Yes the above  
4 3 weeks before did you know ~~you~~ people had to die? YES 99%

### STATE OF MINE

My CZ558 jammed after I shot, If this rifle did not jam, I would have kept on shooting.

Because when I pulled the trigger the second time, the rifle would not shoot, so that I could not kill again. I lean the rifle on the front hood of a (car?) and shot into the crowd standing on rear-entrance stairs. I was aiming to kill, I was not aiming to shoot over aiming to kill

over their heads. My Chant jammed the Rifle.

I was supose to have a second Rifle CZ 858 on my shoulder, but I changed my mind at the last second to take this rifle with me.

If I had this second Rifle with me, I would of kept on killing.

I would have been able, to shoot the police officer at the rear entrance and enter the club with the 4 gallons of Gasoline.

I would still be shooting, so everyone would lie down on the floor or run to the front entrance.

I could then set fire to the 4 gallons of gas.

If possible, If Madame Morais could be seen, I would have killed her.

\* The rifle magazines (hold 35 bullets) military bullets, They are called steel jacket bullets.

The bullets are made to penetrate, & not to open up like Police bullets.

A military bullet can pass through 10 people standing in line.

I about at least 10 CZ 858 in July Aug Sept 2007 for the H1 - N1.

It just happened that way.

## The police

When I approached the back door of the Club.  
There was a man crouched down, holding a pistol, pointed at me, He was trying to close the door. Frantically.  
Remember I had 4 gallons of gasoline in my left hand.  
~~He~~<sup>GASOLINE</sup> was in a Black coyote bag to hide the red 5 gallon canister. In my Right hand was my CZ 858 Rifle.  
In each of my Pants Pockets I had 2 more magazines holding 70 more bullets, to reload my Rifle.  
I was suppose to have a 10 shot pistol with me, but I left it on the top of the Garbage dumpster (yellow) in metal.

This police officer could have shot me 10 times, But he did not. I never aimed my Rifle at him.  
He did not want me dead.

With one Bullet I hit two people.  
Someone cried out, and I heard someone falling down.  
When I realized my rifle was jammed, I started to yell, and they all ran, then I went to the stairs, where the police officer could have shot me 10 times.

I didn't want Mayor to have her victory speech. I think the police officer didn't shoot me (surprise weapon) for this same reason. Even when I made the fire, He came back to finish her speech.

After trying to start the fire. Another Sg Police officer was coming towards me, in a crouched walking position.

I believe he was using a Bus to hide himself.

I dropped my Rifle, because it was still jammed.  
I ran for my pistol, which I left on top of the garbage container.

He could have shot me in the back many times.  
He was very close to me.

When he came up to me, we were face to face,  
no more than two yards.

Our pistols pointed at each other.

You too could have shot me at will.

I pulled the trigger on my Pistol twice, it did not fire.  
It was a new pistol I had bought in summer 2009 for the H1 N1.

I had never fired or tested this pistol.

But in my Yukon truck I had another 10 shot pistol which I had bought in 1984-1985, which I was use to shooting when I was a member at the gun club, in South Shore Lacadie.

Again my Christ Intervened.

<sup>I regret</sup>  
That the man who no longer lives on this Planet, and the man who was injured. They have family and friends too.

The man who died has pained many times in here R.D.P.  
"Drug Pusher". True or False.

After the fire at the back entrance, the people inside could not escape by the back exit.

I was to go back to my truck, and drive to the front entrance on St Catherine street, and set fire in the front entrance with 4 more gallons of gas.
